REGISTER ONLINE FOR THE COVID-19 VACCINE IN MEXICO

These instructions were prepared on February 2 based on an informational video published by the Mexican government (https://bit.ly/3pJtnaB). For the latest information, please consult the Secretariat of Health's website (https://www.gob.mx/salud). The U.S. government does not intend to vaccinate U.S. citizens abroad. U.S. citizens may opt to return to the United States to be vaccinated.

1. Open https://mivacuna.salud.gob.mx/

2. Enter your CURP. In case you don't know it or don't have it on hand, you can check it at https://www.gob.mx/curp/. Once you have entered your CURP, click Confirmar Curp.

3. Verify your data is correct.

4. Select the option "I want to be vaccinated/Quiero vacunarme."

5. In case the data does not match, press "Return" and confirm the CURP data that you entered.

6. Select the State (entidad) and City (municipio) where you are currently living. The purpose of this question is to register to receive the vaccine at the nearest vaccination center.

7. Add the zip code (codigo postal).

8. Enter your telephone number (teléfono) - either yours or your family's. Make sure you can receive telephone calls at this number.

9. In contact notes (Notas de Contacto) you may add more details, such as the time you prefer to be called or if the phone belongs to a family member or friend.

10. Click "Submit/Enviar."

11. Click "Save/Guardar" to complete your registration.

12. After registering, wait for a government employee to call you. They will provide you with the date and place where you can go to be vaccinated.

13. Remember, nobody should ask you for money or bank details; the vaccination is free.

14. The website is available from 8:00 a.m. to midnight, Monday through Sunday.
