

Jóvenes en Acción
U.S.-Mexico Leadership Initiative

The Embassy of the United States, in partnership with the Ministry of Public Education (SEP), is pleased to announce the selected finalists of the eleventh generation of the Jóvenes en Acción program. These selected teams will be implementing community projects to address various social issues, including Domestic Violence as well as Creativity, Innovation and Entrepreneurship. The selected participants are first or second year public and private high school students in Mexico. Due to COVID-19, this year's program will begin with a virtual component followed by the four-week summer travel to the United States at the end of the academic year in 2021. All participants will be soon contacted via e-mail.

The participation of the four alternate teams is subject to availability of funds and they will be notified as soon as possible.
